REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Freedland, and the rest of the prior art fail to disclose applicant's signal distribution system whereby the frequency's of different signals are based upon the distance between the transmission means and the reception means. Neither does the prior art teach applicant's signal distribution system having a transmission means and a plurality of reception means such that the shorter distances from the transmission means to the reception means will have a higher number of bits transmitted. No obvious combination of references found would have taught one of ordinary skill in the art to make and use applicant's system as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H. Smith whose telephone number is 571/272-7546. The examiner can normally be reached on M-F, alternate Fridays off.
